

MD6PU Three-phase undervoltage monitoring relays specification

Products features:

- Monitoring self-power supply
- Phase sequence / absence、 undervoltage
- Line voltage benchmark : 200V, 208V, 220V, 230V, 240V, 380V, 400V, 415V, 440V, 480V

Technical data:

Rated voltage:	150 - 600VAC, 50/60 Hz (line voltage)
Undervoltage:	-2% ... -20% (line voltage benchmark)
Relay output:	2 c/o
Repeatability:	±0.5%
Temperature drift:	±0.05%/°C
Voltage drift:	±1%/V
Relay capacity:	8A/250VAC
Electrical durability:	10 ⁵ cycles
Mechanical durability:	10 ⁷ cycles
IP degree:	IP50/IP20
Operation temperature:	-40°C...60°C
Storage temperature:	-40°C...85°C
Width:	22.5 mm
Height:	92 mm
Length:	100 mm
Mounting:	35mm DIN rail
Standards:	IEC60255-1、GB14048.5

Reference figure for MD6PU:

Line voltage: 150-600V, 50/60 Hz
 — :8A 250V AC

Phase sequence / absence function:

Undervoltage function:

Example:

- Equipment of undervoltage protect for line voltage benchmark 380V product

Setting:

<U: 10%

Accordingly:

<U setting value: $380 - 380 \times 10\% = 342V$

Conclusion:

When voltage is over 342V, voltage is normal, relay c/o switch on,
 led R turn on, led AL turn off

When voltage is under 342V, undervoltage fault occur, relay c/o switch off,
 led R turn off, led AL slow flash

When phase sequence/phase loss fault occur, relay c/o switch off immediately, led R turn off, led AL turn on
